### **REMARKS**

This is in response to the Official Action of September 21, 2005. Applicants have amended the claims and the specification in order to more precisely define the scope of the present invention taking into consideration the outstanding Official Action.

Applicants note with appreciation the indication of allowable subject matter in the outstanding Official Action. The Official Action states that claims 1-8, 11, 12 and 14-16 are allowed. The Official Action also states that claims 9, 10 and 13 would be allowable if rewritten to overcome the rejections under 35 U.S.C. §112, second paragraph as set forth in the outstanding Official Action. Thus, Applicants have amended the claims in order to address these issues and place the application in immediate condition for allowance.

The rejection of claims 9, 10 and 13 under 35 U.S.C. §112, second paragraph as being indefinite for failing to particularly point out and distinctly claims the subject matter which Applicants regard as their invention has been carefully considered but is most respectfully traversed in light of the amendments to the claims and the following comments.

The Official Action urges that claim 9 uses repetitive language. Therefore, Applicants have amended claim 9 to adopt the language suggested by the Examiner in the outstanding Official Action. Specifically, claim 9 has been amended to delete the phrase "after said first plastic substrates and said second plastic substrates".

The Official Action next urges that the phrase "after said adhesive is dried" in claim 10 lacks antecedent basis and that lines 3-4 of claim 10 are not in idiomatic English. Applicants have amended claim 10 to recite a step of allowing said adhesive sealing said first plastic substrates and said second plastic substrates to dry and separating said plurality of display panels by means of a cutting machine. Therefore, claim 10 now provides sufficient antecedent basis for allowing the adhesive of step (e) to dry and the claim language is in proper idiomatic English.

In light of these amendments to the claims, Applicants respectfully submit that

all claims pending in the present application are in full compliance with all the requirements of §112 and are in condition for immediate allowance.

The Official Action objects to the drawings as failing to comply with 37 C.F.R. §1.84(p)(5) because they do not include reference to reference sign 182 mentioned in the description. Accordingly, Applicants have amended the specification to delete all references to reference sign 182. In light of this amendment to the specification, Applicants respectfully submit that the drawings are now in compliance with 37 C.F.R. §1.84(p)(r) and request that this objection be withdrawn.

The Official Action also objects to the drawings under 37 C.F.R. §1.83(a) because Figure 3 fails to show the proper alignment between webs 170 and 160 as described in the specification. Accordingly, Applicants submit herewith a Replacement Sheet for Figure 3. The Replacement Sheet includes a new Figure 3 which shows the proper alignment between webs 170 and 160 as described in the specification. In light of this amendment to the drawings, Applicants respectfully submit that the drawings are now in compliance with 37 C.F.R. §1.83(a) and request that this objection be withdrawn.

Finally, the Official Action objects to the disclosure because at page 1 of the specification the word “portable” is misspelled. Accordingly, Applicants have amended the specification at page 1 in order to replace the term “potable” with the term “portable”. In light of this amendment to the specification, Applicants respectfully request that the objection to the specification be withdrawn.

Applicants now respectfully submit that all the rejections and objections issued in the outstanding Official Action have been addressed and remedied.

Accordingly, Applicants respectfully submit that the application and all claims pending therein is in complete and immediate condition for allowance.  
Reconsideration and allowance of the application is therefore hereby solicited.

Respectfully submitted,
